GAURAV SAIN

Aspiring Software Development Engineer — MERN Stack Developer Intern

+91-8058474876 | gauravmahwa1212@gmail.com | LinkedIn | GitHub | Jaipur, India

Professional Summary

Frontend and MERN Stack Developer with hands-on experience in building responsive and scalable web applications using **React.js**, **Node.js**, **Express.js**, **JavaScript , Redux Toolkit, and MongoDB. Skilled in API integration, authentication, state management, and reusable component architecture. Strong understanding of frontend performance optimization, responsive design, and problem-solving through real-world projects.**

Experience

REGex Software Services Jaipur, India
Full Stack MERN Developer *February 2026 – Present*

- Developing reusable and responsive frontend components using **React.js**, **HTML5**, **CSS3**, and **JavaScript** .
- Working with **Redux Toolkit** for efficient state management and optimized data flow handling.
- Building scalable backend APIs and database integrations using **Node.js**, **Express.js**, and **MongoDB**.
- Integrating REST APIs and improving application performance through debugging and code optimization.
- Collaborating with senior developers to maintain clean code structure and scalable application architecture.

Birla Institute of Technology Mesra Jaipur, India
Digital Marketing & Web Development Intern *July 2024 – August 2024*

- Developed and maintained responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Assisted in SEO optimization, content management, and digital marketing campaigns.
- Worked with the team to improve website performance and user experience.
- Managed website updates and supported online branding initiatives.

Projects

Task Management Platform 06/2026 – 06/2026
React.js — Node.js — Express.js — MongoDB — Mongoose — JWT — Firebase — Cloudinary

- Engineered a secure full-stack task manager featuring dual authentication via **JWT (bcrypt hashing)** and **Firebase Authentication**.
- Implemented Role-Based Access Control (**RBAC**) to restrict actions across admin and user tiers on protected routes.
- Designed normalized **MongoDB schemas with Mongoose** to ensure data integrity and query efficiency across collections.
- Automated background task updates and email reminders using **node-cron** and **Nodemailer**.
- Integrated **Cloudinary API** for seamless file/image uploads and **Axios** for efficient client-server communication.

Hotel Management System 07/2026 – Present
React.js — Node.js — Express.js — MongoDB — JWT — Mongoose — Nodemailer — Cloudinary

- Architected a full-stack hotel booking platform with room management and booking workflow.
- Implemented secure authentication using **JWT**, **bcrypt**, and protected React routes.
- Designed Role-Based Access Control (**RBAC**) for Super Admin, Admin, Hotel, and User roles.
- Automated booking status updates and email notifications using **node-cron** and **Nodemailer**.
- Integrated **Cloudinary** for image uploads and designed scalable MongoDB schemas.

Education

R.C. Khaitan Polytechnic College Jaipur, India
Diploma in Computer Science *September 2023 – July 2025*

Mahatma Gandhi Private ITI College Mahwa, Dausa
ITI – Electrician *August 2018 – 2023*

Technical Skills

Languages: JavaScript
Frontend: HTML, CSS, React.js, Tailwind CSS
Backend & Database: Node.js, Express.js, MongoDB, Mongoose, REST APIs
Tools: Git, GitHub, VS Code, Postman, Thunder Client
Core Concepts: Problem Solving, Time & Space Complexity
